Dear Paul,

We would like to thank you for the outstanding Tweed Seminar series that you presented to our orthodontic residents. They enjoyed the course and learned a tremendous amount during the limited time you had together. They were most complimentary in their evaluation of the course.

It was a pleasure for me to see their growth and the improvement of their hand-skills as Tweed clinicians in such a short time. You are an outstanding educator and have been an asset to our new educational program.

We look forward to future lectures and collaborations with you so the residents can continue to increase their knowledge of the Tweed philosophy. Thanks again.

Best Regards,

Linda A. Hallman, DDS, PhD

Paul,
Everyone loved you -
The course was great!
Linda
